

UNA CONFERMA PER KENNETH ARNOLD

This flying object was twice snapped at dusk Monday as it circled north of Phoenix. William A. Rhodes, 4333 North 14th street, first shot the picture at the left as the slow-flying object was approaching him. As it banked to make a tight turn, he obtained the picture above, showing clearly the shape of the object. In seconds, Rhodes said, the "disc" shot away to the west at high speed. It had made three whirling turns north of the city, after approaching from the west. Aircraft identification experts yesterday would not hazard opinions on the object's nature.

Speedy 'Saucer' Zips Through Local Sky

By ROBERT C. HANIK

THE FIRST clearly recorded photograph of what is believed to be a mysterious "flying disc" which has 33 states in America and even a few foreign countries on edge with its peculiar activities, was taken by an amateur Phoenix photographer.

Reproduced in the Arizona Republic today, the photographs were made by William A. Rhodes, 4333 North 14th street, who was on his way to his workshop in the rear of his home when he heard the distinctive "whoosh" of what he believed to be a P-50 or Shooting Star jet-propelled plane.

Rhodes snatched a camera from his workshop bench and by the time he reached a small mound at the rear of his home, the object had circled his home once and was banking in tight circles to the south at an altitude of approximately 1,000 feet, he said.

IN THE overcast sky the object continued its speedy flight from north to south and directly east of his stance. Rhodes snapped the hurtling missile by sighting along-

Urgent Gas F

(Exclusive) Republic
WINDOW ROCK, Ariz., development of the big helium gas located in the Four Corners area of the Navajo reservation as a potential income for the Navajo, discussed today at the signing of the Navajo bill here today.

Norman Littell, W. C. attorney, urged off about the execution of a advantageous contract a federal government for it gas for government use.

Littell, who came request of Sam Ahk tribal council chairman recently visited Washington and believed that terms of contract are not favor to the Navajo nation.

HE SAID IT is in the Four Corners helium mines 788,000,000 cubic feet comparatively rare element.

Littell declared, he was certain the Navajo would want "Uncle Sam" first priority to gas helium for use in military and for national defense.

Helium, a nonexplosive, inflammable gas, is used by military forces in lighter aircraft. Because it is lighter than air it also is being used in airplane tires.

The Four Corners area discovered six years ago in course of oil drilling in that area. During the war the line was built to the point, it was a pipeline to all military bases at home and overseas. Jet-than-air craft were built.

THERE ARE only a few helium in the United States. Chairman Ahkewi council meeting with his recent visit to Washington to discuss Navajo members of Congress' statement officials.

"What we need is schooling and help in the business," he said.

Due settimane dopo l'avvistamento di Kenneth Arnold, William Rhodes fotografa su Phoenix (Arizona) un oggetto dalla forma identica a quelli segnalati il 24 giugno. L'istantanea è riportata con evidenza da "The Arizona Republic" del 9 luglio.
